

Engineered Systems and Solutions, System Components and Parts, and Replacement Parts

BULK BAG DISCHARGERS

- Hoist/Trolley
- Fork Truck Loaded
- Many Discharge Options
- Dust Collection

BAG DUMP STATIONS

- Dust Collection
- Many Discharge Options
- USDA Sanitary Versions
- Magnetic Grates

ROTARY AIRLOCKS

- Drop through and blow through
- Cast Iron and Stainless Steel
- NFPA Compliant
- Convey Line Adapters

SCREW CONVEYORS

- Quick-Clean and Sanitary
- Variable Pitch Flighting
- Built Per Application
- Twin Screws Available

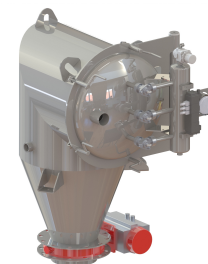

FILTER BAGS, CAGES, & ELEMENTS

- Filter Cages - SS, Galvanized
- Top and Bottom Loading Style
- PTFE Membranes
- Variety of Materials
- Pleated Elements (Cartridges)

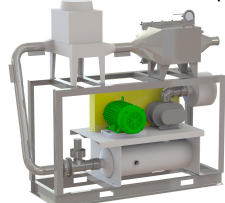

PROCESSING SYSTEM COMPONENTS AND ACCESSORIES

- Lump Breakers
- Cyclones
- Butterfly Valves
- Sifters
- Slide Gates
- Gravity Diverters
- Level Indicators
- Magnets
- Check Valves
- Convey Line Diverts
- Orifice Gates
- Roller Gates

FILTERS/BAG HOUSES

- Round or Square
- Dust Collectors
- Bin Vents
- Side, Top, and Bottom Loaded
- Custom Designs

BLOWER PACKAGES

- PD Style Blowers
- Dense Phase and Dilute Phase
- Sound Enclosures
- Vacuum/Pressure Relief Valves
- Access to Reputable Blower Manufacturers

APPCONVEY FEEDERS

- Volumetric and Gravimetric
- Non-proprietary Components
- Heavy-duty and Sanitary Const.
- Modular Design
- Product Agitators Available

EXHAUST FANS

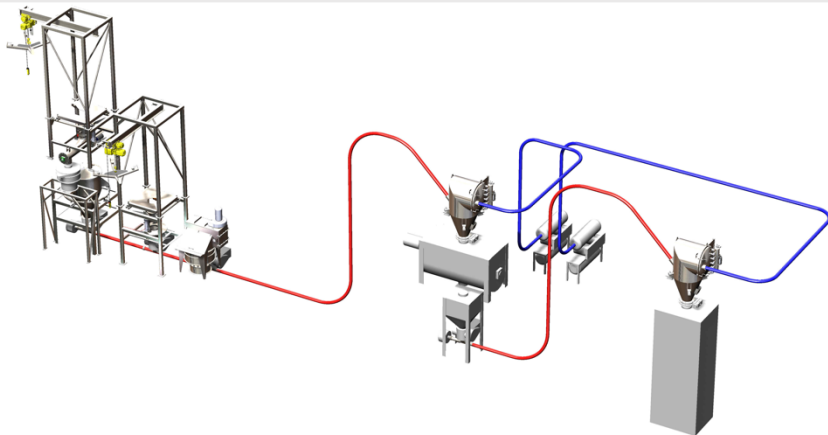

- Numerous Manufacturers
- Cast Aluminum, CS, SS
- Silencers
- Central Vac Centrifugal Blowers
- Outlet Dampers

PERFORMANCE AUDITS

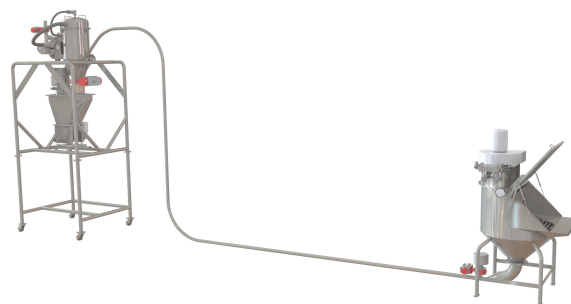

- Years of Experience
- Existing Systems
- New Systems
- Troubleshooting

Engineered Systems and Solutions, System Components and Parts, and Replacement Parts

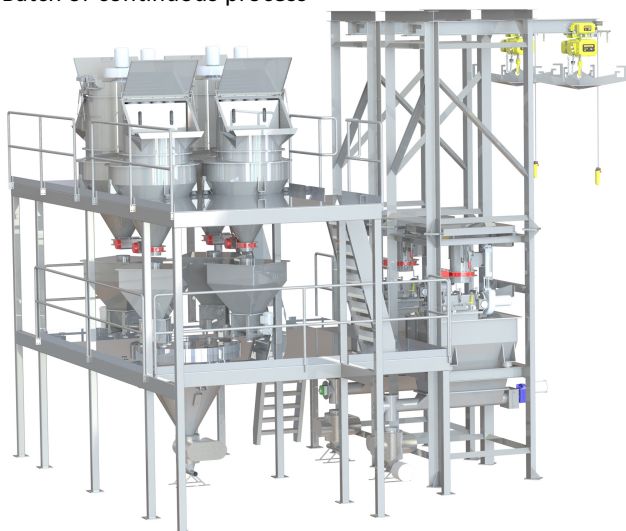

POWDER CONVEYING AND BLENDING SYSTEMS

- Super sack, paper bag, box, or bulk ingredient source
- Systems ranging from simple to complex
- Dilute, dense, and semi-dense phase systems available
- Single component(s) or complete systems available
- Batch or continuous process

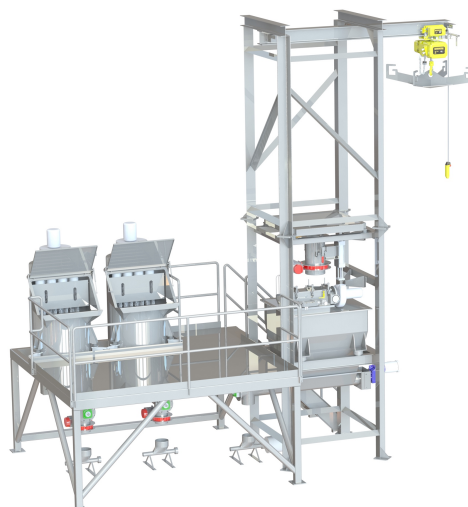

UP-AND-IN VACUUM CONVEYOR

- Numerous system source options
- Sanitary system design and fit-and-finish available
- Conveys most products 75 to 100 ft
- Quick take-apart components for cleaning
- Custom equipment configurations available

INGREDIENT BATCHING SYSTEMS

- Automated systems utilizing load cells for precise weighing
- Numerous different ingredients
- Safe and sanitary equipment design

COMBINATION BULK AND SMALL BAG SYSTEMS

- Complete systems including access platforms
- Ergonomic operator interface
- Integrated or remote dust collection
- Product conditioning, size reduction, policing equipment available
